

# Stratocell® Whisper™

Installation

Ethafoam® and Stratocell® Whisper™ are sound absorbing foams

Due to the mechanical strength it can be installed as self-supported panels by utilising **Mechanical fasteners** and clips

Whisper can be easily bent, which enables the product to be easily installed on contoured surfaces

## B6 Akustik A | S

Discover a world that combines good solutions with the best design

Whisper™ can also be installed by applying adhesives suitable for plastics

Example of a double adhesive layer on Whisper™ surface

## **Two Component Adhesive**

1899 PUR Adhesive 2K and 1821 curing agent from Casco Nobel  
Scotch-weld DP 8005 (Acrylic based) from 3M

## **Hot Melt Adhesive**

Jet Melt™ Adhesive 3792 from 3M (thermoplastic based)  
Jet Melt™ Adhesive 3748 from 3M (EVA based)

## **Solvent-based Adhesive**

Spray adhesive 77 from 3M  
Sta'-Put SPH by Tacc International – Spray

## **Waterborne Adhesive**

Aqua spray 9607/08 of Casco Nobel

## **Reactive Adhesive**

Jet Welt TS 230 (PUR) from 3M

## **Double side pressure sensitive adhesive tape**

Avery Dennison – FT 1126 / FT 5212  
Nitto - Nitto 5015

## Installation Example with Scotch Weld DP 8005

Scotch Weld DP 8005 is easy, quick and durable solution for metal, plastic, wood etc

Scotch Weld DP can be applied on Whisper™

Excellent adhesion of Whisper™ on stainless steel or plywood board

### Conclusion

Whisper™ offers an excellent balance of mechanical strength and flexibility that enables an easy and cost effective solution.

The light weight of the material (compared to heavy materials such as mineral fibers, rebonded PU) also contributes to the weight and cost saving efforts in most industries.
